CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Our college is affiliated to the Bilaspur University, Bilaspur Chhattisgarh. We follow the curriculum prescribed by the university. We have to abide by the Academic Calendar provided by the department of higher education. The curriculum provided by the university serves as a framework for teaching and learning in the college The curriculum is a learning-centered one rather than being a content driven one which places learning at the forefront of all curricular development activities. Although the programmes and courses are designed at the state level but our teachers have their say as members of boards of studies. The Heads of all the departments prepare their own departmental schedules and guidelines. The IQAC helps in strategizing the best methods to successfully implement the curriculum. Effective delivery of the curriculum is ensured by the active implementation of the time plan. At the very beginning of the academic session orientation programme is organized for the students of first year of all the disciplineto drive home the desired aims and objectives of different courses and programmes. Aspects of holistic learning are brought into early undergraduate years, Different faculties devise and methodise approaches to address the academic requirements of the students.While designing the lesson plan there is a focus on the relevance of the academic outcome and the requirements of students in the context of

professional practice. Students are also encouraged to develop their persona and become a best product excelling in qualities ensuring employability. Senior students become excellent mentors and with their supervision the juniors learn the fundamentals of the learning process of the higher education institutions that contributes to the development and delivery of learning in a meaningful, holistic manner. Yearly lecture planning is a complex process where faculty defines intended learning outcomes, assessments, content and pedagogic requirements necessary for student success across an entire curriculum. The faculty members are encouraged to prepare an active plan for their classroom teachings for the whole academic session before the academic year commences. The HODs are directed to make sure of the same. The preparation of such a plan helps with equal and effective distribution of lectures engaging all the faculty members actively in the teaching process. This helps in keeping the clarity of distribution of curriculum and timely completion of the course well before the start of the final examination at the end of the curriculum year. All the student members are encouraged to attend the seminars presented by the fellow student members to brush up their knowledge of the topics and to add the individual insights for enhancement of theoretical as well as the practical knowledge of the topics covered. The projects, if any, are allotted after careful consideration of their qualifications, subject specializations, experience and performance.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1.Plantation and Identification of the plants of the Medicinal value Objective of the Practice To plant and identify plants of medicinal value around the vicinity of the college so that the vast resources of such plants are utilized for the well being of the community. The Context Sitting cozily amidst the scenic mountains belonging to Maikal ranges the college is the home of diverse flora and fauna. Because of sustained and systematic tree plantation drives since its inception, the college is now the home of an amazing variety of medicinal plants like Ashwagandha, Giloy, Sarpagandha, Parijaat, Sahjan, Chiraita, Kaitha, Aloe vera, Pudina, Tulsi, Neem are a few to mention among more than 50 local and exotic varieties of medicinal plants in the college campus. These plants are sparingly used by the members of the college family and local populace alike for medical and nutritional purposes. The Practice: A specialized committee appointed by the principal of the college does the preliminary groundwork of the Green Audit under the supervision of the Department of Botany a team of teachers, as well as students, conduct a thorough survey of the area adjacent to the college for the plants of medicinal value. Identifying and labeling of the plants is done and plants that need proper attention are segregated. An awareness drive is organized to make students aware of the properties of such plants. 2.Biodegradable wastes recycling Objective of the Practice To recycle the biodegradable waste of the campus and make the students aware of the environment. The Context Garbage or Wastes that rot by the action of decomposers are called biodegradable wastes. Dead plants and animals and their products (e.g., fruit and vegetable peels, paper, and leaves) decay very easily. These wastes mix with the soil and produce manure. This process is important to trash out the land and environment which is a prime concern of this era. Waste reduction initiatives save natural

resources, energy, and landfill space. It also provides numerous opportunities for the students to understand this issue and its implications on the local environment. The Practice A Lush green campus of the college enhances the beautification in one hand but generates lots of biowaste in the form of twigs, leaves, flowers, weeds, etc. Our management ensures the proper disposal of biodegradable waste from the college and college canteen. For proper disposal of solid waste (Bio) environment committee of the college has decided to take proper management of this bio-waste of the campus and the following steps has been taken : Separate dustbins all over the campus have places to ensure proper disposal of waste. Every day workers of the college broom the campus and garden, gardeners clean and trim the garden plants, manage the shape size of large trees. The leaf litter and garden waste waste derived from fruit and vegetable origin from the hostel and canteen are collected transported to a compost pit. In the campus, two such compost pits were constructed.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Institutional distinctiveness - The institute is situated in a remote scheduled area and caters to the educational needs of the backward and downtrodden sections of the society nearly 88 of our students belong to ST/SC/and other backward classes. The majority of the students come from the BPL section of the society yet our college is known for excellent annual results. More than 80 of our students were successful in last years university examinations. This is the outcome of the grit of our students as well as the innovative teaching methods used by our teachers. The intellectual output appears to be significant as most of our students are first-generation learners.
